

2026-2027 Teacher Incentive Allotment Handbook

Passed by the 86th Texas Legislature in June 2019 through House Bill 3, TEC §48.112 set a goal that Texas classroom teachers would have access to a six-figure salary. The state Teacher Incentive Allotment (TIA) provides additional financial distributions directly to districts based on teacher identification, student need as identified by compensatory education allotment (see TEC §48.104), and campus location (i.e., rural vs. non-rural). The statute requires that ninety percent of TIA funds are used for compensating teachers employed at campuses with TIA-designated teachers.

Based on a locally-developed teacher designation system detailed in TEC §21.3521, teacher access to additional compensation is based on the local identification of teachers as master, exemplary, or recognized. The local system must consider teacher evaluation and student growth outcomes. Once earned, teacher identification is applied to an individual's teaching certificate and valid for a five-year period.

This field guide is intended to provide an overview of the implementation of TIA in Harlingen CISD.

Teacher Incentive Allotment Overview

The Texas Education Agency's Teacher Incentive Allotment (TIA) program is dedicated to recruiting, supporting and retaining highly effective teachers in all schools, with particular emphasis on high-needs and rural schools. Our implementation began during the 2021-2022 school year. This program provides a pathway to financially recognize top teachers and serves as a great opportunity to honor the hard work and proven success of our Harlingen CISD teaching staff.

This is not a merit-pay approach to compensation, and it will not replace the district's current pay structure. For those who earn a distinction based on the local designation component and criteria, it will be an **additional state allotment** separate from the current Harlingen CISD pay structure. However, this funding is credited in the Teacher Retirement System and will be used in retirement benefit calculations.

Teacher Designations

Teacher designations are an official state recognition awarded to teachers who demonstrate exceptional performance according to their district's local designation system. These designations—Acknowledged, Recognized, Exemplary, and Master—identify teachers who meet specific standards of excellence and impact rooted in teacher performance and determine the level of additional compensation they generate for their district.

Teacher designations must align with the performance and validity standards outlined in Texas Administrative Code (TAC) §150.1012. At minimum, teacher performance data must include:

- Teacher observation based on the Texas Teacher Evaluation and Support System (T-TESS). Alternatively, the National Institute for Excellence in Teaching TAP System for Teacher and Student Advancement (NIET TAP), Marzano's Teacher Evaluation Model (Marzano), or the Danielson Group rubric (Danielson) are approved to use with their corresponding T-TESS crosswalk. Locally developed rubrics must comply with TEC §§21.351 and 21.352, and TAC §149.1001.
- Student growth measures determined by the district. Districts are not required to use approved standardized assessments for purposes of designation. Districts may use third-party or district-created pre-tests and post-tests, Value-Added Model (VAM), Student Learning Objectives (SLOs), and/or portfolios.
- Please see Appendix A for a list of the 2026-2027 HCISD TIA Local Designation Approved Student Growth Measures

Teacher-Generated Allotments

Teacher-generated allotment(s) refers to the annual funding that districts receive for each eligible teacher who holds a TIA designation. The specific amount of an allotment generated is determined by the teacher's designation level and the type of campus where they work, with higher funding directed to high-needs and rural schools. Districts use these allotments to incentivize and retain effective teachers in classroom positions and to strengthen staffing at campuses that need additional support. For more information about the TIA allotment calculations, see TEA's [Teacher Incentive Allotment](#) page.

\$3K-\$9K

Acknowledged designations represent the top 50% of Texas teachers

\$5K-\$15K

Recognized designations represent the top 33% of Texas teachers

\$9K-\$25K

Exemplary designations represent the top 20% of Texas teachers

\$12K-\$36K

Master designations represent the top 5% of Texas teachers

National Board Certification Teachers (NBCT) and TIA

NBCTs employed as Texas public school teachers may be designated as Nationally Board Certified notwithstanding statewide performance standards. All districts employing eligible, designated NBCTs may receive TIA allotment funds. A local designation system is not required.

National Board Certification is a voluntary, advanced professional certification for Pre-K–12 educators that identifies teaching expertise through a performance-based, peer-reviewed assessment. Teachers are certified based on standards set by the National Board for Professional Teaching Standards (NBPTS). NBPTS requires teachers to have at least two years of experience as a certified teacher before registering as a candidate for National Board Certification. Some exceptions may apply.

Teachers may pursue National Board Certification independently or with the support of a district or regional cohort. On average, candidates who successfully certify take two to three school years to complete and pass all components.

NBCT Designations

TEA oversees the designation process for Texas NBCTs; no application is required from the NBCT or their employing district. Prior to the passage of House Bill 2 in 2025, NBCTs were eligible for a Recognized designation. In fall 2026, NBCTs previously designated as Recognized will be redesignated as Nationally Board Certified.

NBCTs must meet the following criteria to earn a Nationally Board NATIONALLY BOARD CERTiFiED Certified designation in a given school year:

- Hold an active certificate issued by the NBPTS.
- Employed as a public-school teacher and reported with a 087 Staff Classification in the Class Roster Winter Submission. Alignment with the National Board certificate area is not required.
- Listed as a Texas teacher in the NBCT Directory as of January 31. NBCTs moving to Texas from out of state must update their information to reflect Texas employment.
- Does not have a Texas teaching certificate in revoked, suspended, or voluntary surrender status.
- Is not listed on the Texas Do Not Hire registry.

Designations for newly certified NBCTs who meet the eligibility criteria are awarded the same school year in which they certify. Designations are valid through July 31 following the expiry of the National Board certificate. TEA updates the designation expiry date for NBCTs who recertify.

Special note regarding National Board Certification: HCISD staff that possess a National Board Certification should contact HCISD's Human Services Department to provide the necessary documentation. Staff with National Board Certification will automatically be submitted for a TIA Acknowledged designation.

Designation Policies

For certified teachers, TEA will display the designation in the top right-hand corner of the State Board of Education Certification (SBEC) teaching certificate. Designated teachers are assigned a Designated Teacher ID and listed in the Designated Teacher Public Search Registry.

Teachers may only have one active designation at a time. Acknowledge, Recognized and Exemplary teachers who meet an approved district's performance criteria may be submitted for a higher level of designation. In these cases, the five-year clock restarts, and the lower designation becomes inactive.

National Board Certified Teachers who qualify for a designation through their district's local designation system may be put forth for any level of designation. TEA defaults to the higher designation, and the Nationally Board Certified designation becomes inactive.

Teachers may not be submitted for a lower designation. Once a teacher's designation expires, an approved district may submit them for a new designation at any level if they meet the local performance criteria.

Same-Level Early Redesignation Pathway. Teachers in their final year of designation (year 5) may be submitted for a same-level redesignation if their performance from the prior school year (year 4 of designation) qualifies.

Approval of individual teacher designations are voidable by TEA for one or more of the following reasons:

- A teacher has not fulfilled all designation requirements.
- The teacher is listed in the Texas Do Not Hire registry.
- The designated teacher's certificate issued by the SBEC is in a sanction status.
 - Note: Certificate sanctions result in automatic designation revocation. If the sanction is lifted, the designation may be reinstated to the original expiry date.
- The designating district or charter school's designation system was voided.
- The National Board for Professional Teaching Standards revokes a National Board Certification that provided the basis for a teacher's designation.

HCISD Designation System

Harlingen CISD developed a local designation plan that incorporates the statutory required components of teacher observation and student growth. Each component has been assigned a percentage for an overall score that will be calculated at the end of the school year.

Teacher Observation	Student Growth
40%	60%

Eligibility for TIA Designation

To be eligible for a TIA designation a teacher must:

- hold a **valid SBEC teaching certification** or valid HCISD DOI certification;
- be **coded as a teacher (code 087)** within our local student information system, Power School (eSchoolPLUS), which is reported to TEA through the Public Education Information Management System (PEIMS); and
- receive district salary compensation that mirrors PEIMS teacher coding for a minimum of **90 days at 100% of the day or 180 days at 50-99% of the day.**

TEA Minimum Performance Standards

In order to be eligible for a TIA designation, TEA has established minimum performance standards for Teacher Observation and Student Growth.

*Forced Designation Rule: A teacher with an overall TIA score resulting in a designation greater than a minimum established by TEA for either the Teacher Observation or Student Growth component will be forced to the lowest corresponding designation as seen below. (ie: A teacher's overall score may indicate Exemplary, however if they received a 3.8 (Recognized) on T-TESS Domains 2 & 3, they would receive an overall **Forced Designation of Recognized** due to the Teacher Observation score.)*

Teacher Observation Minimums

TIA establishes a priority emphasis on the Instruction (Domain 2) and Learning Environment (Domain 3) domains of the T-TESS evaluation. In order to be eligible for a TIA-designation, HCISD's local designation plan includes that teachers must earn a rating of proficient (3) or higher on each of the eight dimensions measured across Domains 2 and 3. In addition, based on an analysis of statewide T-TESS observation data, TEA has identified minimum score averages across Domains 2 and 3 of T-TESS:

- Acknowledged designation ≥ 3.5
- Recognized designation ≥ 3.7
- Exemplary designation ≥ 3.9
- Master designation ≥ 4.5

Student Growth Minimums

To be eligible for a TIA-designation, teachers must earn a minimum student growth outcome. TEA established these minimum expectations based on statewide performance expectations:

- Acknowledged designation $\geq 50\%$
- Recognized designation $\geq 55\%$
- Exemplary designation $\geq 60\%$
- Master designation $\geq 70\%$

**Note: The statewide performance standards are guidelines for districts to use when developing their local designation system. District minimum performance standards and cut points may have to be adjusted and will be finalized in September after the data capture year.*

Teacher Observation: T-TESS

The Texas Teacher Evaluation & Support System (T-TESS) is the state adopted teacher appraisal instrument. T-TESS includes three components aimed at capturing the holistic nature of teaching and developing teacher habits of continuous improvement:

- a. goal setting and professional development plan;
- b. formal observation; and
- c. post conference (i.e., evaluation cycle)

In order to determine teacher eligibility for **Teacher Incentive Allotment (TIA)**, HCISD will calculate an average T-TESS score using the Summative Scores for Domains 2 & 3. The Summative scores are informed by the observation and scored walkthroughs conducted throughout the school year.

Dimension & Domain Scores

There are eight dimensions calculated for TIA from the T-TESS instrument:

- **Instruction (Domain 2)**
 - Achieving Expectations (Dimension 2.1)
 - Content Knowledge and Expertise (Dimension 2.2)
 - Communication (Dimension 2.3)
 - Differentiation (Dimension 2.4)
 - Monitor and Adjust (Dimension 2.5)
- **Learning Environment (Domain 3)**
 - Classroom Environment, Routines and Procedures (Dimension 3.1)
 - Managing Student Behavior (Dimension 3.2)
 - Classroom Culture (Dimension 3.3)
- Each dimension is scored on a scale of 1-5: 1 (Improvement Needed), 2 (Developing), 3 (Proficient), 4 (Accomplished), and 5 (Distinguished).

Domains are scored based on the **average** scoring of the eight dimensions, rounded to the nearest hundredth (two decimal places).

T-TESS Score for TIA

The total T-TESS score is an average calculation; the Instruction (D2) and Learning Environment (D3) Domains have a great impact on the total T-TESS score because the identified dimensions within these domains reflect observable instruction. To be eligible for TIA the HCISD's TIA local designation plan includes that a teacher must score a minimum of Proficient (3) in all Summative dimension areas. Each dimension from the Summative: Domains 2 and 3 will be

included in the calculation of an average rating for the Teacher Observation component. The average rating will be translated into a percent scaled score.

T-TESS Waivers for TIA

No TTESS waivers will be granted for any HCISD teacher during the 26-27 school year.

All teachers in eligible teaching assignments must receive a complete observation and full appraisal during the Data Capture Year. Teachers with incomplete observation data or without a summative appraisal are not eligible to earn a designation.

Student Growth Measure (SGM)

TIA Requirements for Student Growth Measures

Districts must establish growth targets at the individual student level that can be linked to the applicable teacher and are content and standards-aligned. The district's application must show evidence of validity and reliability of assessment development, administration, and scoring.

For eligible teaching assignments, districts must use a valid and reliable student growth measure and implement protocols for secure administration and scoring. Unlike previous incentive programs based on achievement data, TIA requires districts to identify effective teachers using student growth data. Districts are not required to use STAAR data or other standardized assessments for the local designation system. Ultimately, districts need to ensure:

1. Validity of the content
2. The student growth measure can be used to set expected growth targets
3. Valid and reliable administration protocols and scoring
4. Security protocols are in place

The statewide performance standards for each designation level align with teacher effectiveness based on the teacher's percentage of students who meet or exceed an expected growth target over the course of a single school year. Rather than using the magnitude of growth, effectiveness is measured by the impact teachers have on all students by setting growth at the individualized student level. This method allows more equitable access to a designation for effective teachers, regardless of their student population.

At the beginning of the year, each teacher is expected to meet with their administrator to identify the TIA eligibility category that will be used for the 2026-2027 school year. The teacher's category must be determined by the 9th week of school and cannot change after that point. For the 2026-2027 school year, that deadline to determine teacher category is October 08, 2026. This category will be entered into eSchool by school administration or designee.

See Appendix B (How to Determine TIA Teacher Category and Growth Measure)

Note: Once an Eligibility Category has been set it can not be changed.

Pre/Post Test Subjects -

Student growth will be calculated for all students that have a designated fall and spring assessment. For TIA, student growth performance will be associated with teachers based on the following enrollment criteria:

- teacher of record at beginning of year assessment (August/September)
- teacher of record at PEIMS Winter Class Roster (last Friday of February)
- teacher of record at end of year assessment (April/May)
 - Teachers will be required to review and sign a TIA Winter Class Roster Validation Report to ensure that class rosters are accurate. This report will be sent to campuses in the Spring. For any class roster discrepancies, please contact datagov@hcisd.org as well as notify your campus principal.

Student growth will be calculated at the teacher level by the total number of students that most accurately represents the teacher's instructional assignment. In order for teachers to receive a student growth measure,

- For the 26-27 school year, there are no minimum number of unique student growth records required to calculate the growth measure, provided consultation with administration for selection of the most representative course and maximum student data is collected when determining eligibility.

For information about which courses will have an eligible student growth measure during the 2026-2027 school year, see Appendix F in this handbook.

Student Growth Instruments

The instrument used to measure student growth depends on the teaching assignment, grade level, and subject area.

Student Growth Measures

HCISD's implementation emphasis is on the identification of core content area teachers across all grade levels, thus the following student growth measures are utilized:

- i-Ready Reading and/or Mathematics will be used for K-5 RLA and K-5 Mathematics teachers
- STAAR with Transition Tables will be used for Grades 6-8 Reading, Language Arts & Math; English I, English II, and Algebra I
- Texas VAM will be used for 8th grade Social Studies and Science; Secondary Biology and US History teachers
- CLI CIRCLE tests: identified subtests in Reading and Mathematics will be used for PK-3 and PK-4 teachers

- Student Learning Objectives (SLO) will be used for: All Fine Arts, CTE, SPED (Inclusion, Life Skills, ECSE, Dyslexia, VI, APE, Resource, BAC), GT, AP and Dual Enrollment, Semester Based Courses, PE/Athletics/ROTC, Foreign Languages, DAEP, Credit Recovery, 5th Grade Science, Non-EOC Core Classes.
- For teachers with multiple subjects within the same Pre/Post Test eligible category, the classroom student growth will be calculated based on all tests taken for each eligible course. For example, if a teacher teaches both Algebra I and Geometry, the growth measure will consist of all students in both courses. If a teacher is self-contained in 5th grade, then the growth measure would consist of all student scores for Reading and Math.

For teachers who teach courses in multiple eligible teaching categories, their data will only be submitted for one eligible category. For example, if a teacher teaches 5 sections of U.S. History and 1 section of AP Government, the teacher's most representative course is where he/she will participate in TIA (Refer to the Appendix B for guidance). The teacher's formal observation should be conducted in this course as well. The teacher's category must be determined at BOY by the 9th week of school and cannot change after that point. For the 2026-2027 school year, that deadline to determine teacher category is October 08, 2026. This category will be entered into eSchool by school administration or designee.

Middle school students participating in high school courses should be assessed with the student growth instrument that corresponds to the high school course. For example, student growth for middle school Algebra I students will be calculated using the Algebra assessment.

Calculating Student Growth for TIA

To calculate the percentage of a teacher's students who met or exceeded expected growth, districts divide the number of students who met or exceeded their expected growth target by the total number of students with an expected growth score who completed the final assessment.

$$\text{percent of students who met or exceeded growth targets} = \frac{\text{total number of students who met or exceeded growth target}}{\text{total number of students with an expected growth score who completed the final assessment}}$$

To be included in a teacher's total number of students, the student must have an expected growth target set at the beginning of the year and must complete the assessment. Percent of students who met or exceeded growth targets = total number of students who met or exceeded growth target/ total number of students with an expected growth score who completed the final assessment.

The Growth Component Percent Score will be calculated by dividing the collective total number of assessments meeting growth expectations across all TIA approved content areas by the total number of assessments across all TIA approved content areas.

For i-Ready, student growth is calculated as the percentage of students that meet or exceed their i-Ready typical growth from the fall/BOY administration to the spring/EOY administration. For teachers with multiple subjects within the same Pre/Post Test eligible category, the classroom student growth will be calculated based on all tests taken for each eligible course.

For PK CIRCLE tests, student growth is calculated as the percentage of students that meet or exceed expected CIRCLE growth from the fall/BOY administration to the spring/EOY administration. HCISD will use the three labels: Needs Support, Monitor, and On Track. This determination of labels is calculated by the exam itself using a student's age at BOY and their score on each specific skills test. For this assessment, HCISD will require students to move up a minimum of one label or maintain their On Track label comparing their BOY to their EOY results.

**Note: Any student that is assessed outside of the district designated testing window dates will be considered invalid and will not be included in the student growth measure calculations. **

Texas VAM

Texas VAM provides a standardized, statewide approach to evaluating student growth and is aligned with the Texas Teacher Incentive Allotment (TIA) to support accurate and consistent growth metrics across districts.

What is Texas VAM

Texas VAM is a predictive, regression-based statistical model developed by SAS in collaboration with Texas Tech University and the Texas Education Agency (TEA). Designed to measure teacher impact on student learning growth, Texas VAM evaluates whether students taught by a specific teacher met or exceeded their expected performance on STAAR assessments. This model provides districts with a robust basis for evaluating teacher impact and supports TIA's objectives by ensuring comparability across districts.

In Texas VAM:

- Expected growth is defined by comparing each student's actual score to their predicted score, which is calculated based on historical testing data. Positive growth means students performed better than expected, while negative growth indicates they performed below expectations.
- Output metrics focus on the percentage of students meeting or exceeding growth expectations. Teachers are categorized by performance levels ("Recognized," "Exemplary," and "Master") based on the percentage of students who achieved their expected growth.

How is the expected score calculated?

The predictive model can be used with any assessment that has sufficient prior testing. This prior testing, or predictors, can include assessments in the same or different subjects.

This model generates an expected score for each student. This expected score is the score the student will make on the selected assessment if the student makes average or typical growth. To generate each student's expected score, we build a robust statistical model of all students who took the selected assessment in the most recent year. The model includes the scores of all students in the state, along with their testing histories across years, grades, and subjects.

By considering how all other students performed on the assessment in relation to their testing histories, the model calculates an expected score for each student based on their individual testing history.

To ensure precision in the expected scores, a student must have at least three prior assessment scores. This does not mean three years of scores or three scores in the same subject, but simply three prior scores across grades and subjects. The only exceptions are assessments in grade 4, which require only two prior assessment scores.

There are additional student- and group-level factors that are controlled for in the model and considered in the final expected score. These factors are student census tier, campus rurality, average school census tier, and the teacher-level average expected score based on prior achievement.

What is the Percentage of Students Meeting or Exceeding Expectations?

The predictive model produces a final expected scale score for each student included in the model based on students' prior achievement and additional student and group level factors. For the purposes of TIA, all available expected student scale scores in a given school year are compared to students' actual scale scores to determine which students met or exceeded the expected scale score. The denominator in this calculation is displayed as the Student Count on the Percentage of Students Meeting or Exceeding Expectations report. These are then aggregated to the teacher level across all available grades and subjects for the teacher to generate a single value using the following equation:

$$\frac{\text{Number of student scale scores greater than or equal to expected scale scores}}{\text{Number of student scale scores}}$$

For example, if a teacher had 60 student scale scores included in the model across grades and subjects and 48 met or exceeded the expected scale score, then the calculation of this metric would be:

$$48/60 = .80 = 80\% \text{ of students met or exceeded expectations}$$

To create an overall measure, all students are used in each subject and grade or course connected to a teacher, and an overall percentage of students that have scored greater than or equal to their expected score is calculated.

STAAR with Transition Tables

STAAR Transition Tables calculate growth by comparing a standard deviation in scale scores from year to year. Transition tables measure student academic growth in Reading Language Arts (RLA) and Mathematics for accountability.

The Transition Table model is used to determine academic growth for Domain 2A. Student performance on STAAR is separated into four performance categories - Masters Grade Level, Meets Grade Level, Approaches Grade Level, and Did Not Meet Grade Level.

Cut points for high/low Did Not Meet and Approaches Grade Level are available for each applicable grade level and subject area based on standard deviations of scale scores. To calculate a growth score students must meet the accountability subset and have a non-zero STAAR assessment result in both the prior year and current year.

Enhanced performance levels are determined based on raw scores. After each STAAR test administration is complete, raw scores are converted to scale scores to quantify student performance relative to the performance levels. See Raw Conversion Tables on the TEA Student Assessment Division website for more information.

For the purposes of the HCISD Teacher Incentive Allotment (TIA) calculation, a student will be counted as having met or exceeded growth if they earn a full 1.0 point on the STAAR Transition Table. Students who earn 0.5 points (partial progress) on the Texas Education Agency (TEA) STAAR Transition Table do not meet the district's threshold for TIA growth and will be excluded from the numerator of the teacher's final student growth percentage.

The percentage of students meeting growth targets will be calculated using the following formula:

$$\frac{\text{Number of Student Earning 1.0 point}}{\text{Number of Eligible Students with Prior and Current Year STAAR Scores}}$$

- Met Growth (included in Numerator) Students earning 1.0 point
- Did Not Meet Growth (excluded from Numerator) Students earning 0.0 or 0.5 points

Note: While the state accountability framework recognizes 0.5 points for campus ratings, the HCISD TIA Local Designation Plan requires a student to earn a full 1.0 point minimum on the STAAR Transition Table to be counted as a 'growth success' for TIA teacher growth calculations.

Student Learning Objectives (SLO)

TIA Requirements for Student Learning Objectives

TIA requires districts SLOs align with all guidelines for texasslo.org

Student Learning Objectives focus on a foundational skill that is developed throughout the course curriculum and tailored to the context of individual students. SLOs measure student growth through a body of evidence (BOE) with a minimum of five pieces of student work. Teachers set expected growth targets for each student. Student growth is evaluated individually using the Body Of Evidence (BOE).

Student Learning Objective (SLO)

Teachers will create Student Learnings Objectives (SLO) and Targeted Skill Profile (TSP) rubric. The SLO, and TSP must be aligned by fundamental standards and describe clear growth expectations. The SLO form and TSP must be reviewed and approved by the campus administration in the See One system.

For the 26-27 school year, there is no minimum number of students required to calculate the growth measure, provided consultation with administration for selection of the most representative course and maximum student data is collected when determining eligibility.

For TIA, student growth performance will be associated with teachers based on the following enrollment criteria: Students must be enrolled, identified, and included in the See One system on/or before **September 11, 2026, or prior to submission and approval of SLO by campus administrator**. Students enrolled or not identified after this date will not be included in the data capture for growth measure. After the teacher's SLO is approved by campus administrator the SLO will be locked and no further changes will be allowed. Students who withdraw from the teacher's class will remain in the teacher's roster in See One and will be removed from the final growth calculations by the district team prior to final growth calculations.

All SLOs must have a "body of evidence" (BOEs) or student artifacts that are developed utilizing beginning of the year data and Targeted Skill Profile (TSP). Five (5) BOEs must be submitted per student for that student growth measure to be included in data capture.

As per HCISD TIA local policies, student growth goals will be set at two levels higher than the initial mapping placement level. Students will be considered as meeting growth at the end of the year by Meeting or Exceeding their Growth Goal. Growth for each student will be determined by calculating the average score of ratings received on the five required body of evidence submissions.

When determining the average score, rounding rules will not be used. For example, if the average of the five ratings is scored as 4.7, then 4.7 will be used as the average. The 4.7 will **not** be rounded to a 5.0. See example below:

PLEASE NOTE: This is a working document; details are subject to change. Updated 8/21/26 p.17

Student	Student Mapping BOY Level	Growth Goal	Check-In 1	Check-In 2	Check-In 3 (MOY)	Check-In 4	Check-In 5 (EOY)	Growth Succeed?
Student A	2	4	3	4	5	5	4	Yes, 4.2, Exceeded
Student B	3	5	5	5	5	5	5	Yes, 5, Met
Student C	2	4	2	4	2	2	4	No, 2.8, Did Not Meet
Student D	3	5	3	4	4	4	5	No, 4, did not meet
Student E	2	4	4	4	4	5	5	Yes, 4.4, Exceeded

In this example, the teacher has 5 students. 3 of the 5 students met or exceeded their growth targets. The teachers final growth score will be calculated as follows:

$$\frac{3 \text{ students met or exceeded their growth targets}}{5 \text{ total students in the class}} = 60\%$$

All student artifacts must be accessible for validation utilizing the SeeOne Data System. Scoring for body of evidence artifacts will be provided by inter/intra district raters for validation. The ratings received through official Texas SLO raters are final. Rerating of BOEs for any reason, will not be offered or allowed.

Check-In Deadline dates for submission of body of evidence (BOE) are developed by the district and communicated to teachers at the beginning of the year. The deadline dates can also be found on the HCISD TIA website. Teachers should be mindful of these dates and make every effort to meet the submission deadlines. The See One system will be closed for further BOE submission at 11:59 p.m. on the deadline date. To ensure the validity and reliability of the data collected for TIA purposes, no late submissions will be accepted. See Appendix C and D for SLO Deadline dates for Full Year And Semester Based Courses.

SLO Development and Approval Process

1. Initial Training: Teachers that are SLO eligible are encouraged to complete either the in-person or the module based training on SLO development, including data analysis, setting growth goals, and using assessment tools.
2. Development Phase: Teachers, in collaboration with campus administrators, campus instructional coach, team lead, or content specialists, will draft SLOs aligned with district

PLEASE NOTE: This is a working document; details are subject to change. Updated 8/21/26 p.18

curriculum and student data.

3. Approval: SLO's will be evaluated for rigor, alignment, and consistency using the state provided rubric. SLO's will be submitted to campus appraisers for approval. It is highly recommended that teachers collaborate with other teachers to review the [Texas SLO rubrics](#) designed to assist teachers in writing their SLO skill statement and TSP prior to final submission of their SLO work to their administrators.
4. Mid-Year Check-In : Can be during PLC, walkthrough or meeting to review progress. Teachers and administrators will review student progress data and discuss adjustments to instructional strategies to support student growth.
5. End-of-Year Scoring: Teachers will submit final (5th) student performance data set into See One data system. Administration/evaluators will evaluate the extent of student growth according to submitted artifacts and pre-established scoring results and by utilizing data analysis from the See-One data system.

Ongoing Support and Continuous Improvement

HCISD and/or Texas SLO Hub (Region 1 ESC) will provide annual and ongoing training, resources, and collaborative opportunities to refine the SLO process and ensure validity and reliability. Continuous feedback from educators and administrators will inform updates to guidance documents, scoring rubrics, and professional development offerings.

Student Growth Measure Integrity

It is important to the integrity of HCISD's TIA system that student growth measures are administered fairly and consistently throughout the organization. In order to ensure that all students have the opportunity to demonstrate their full potential on student growth measures, the following conditions must be met. This section also covers testing irregularities, reporting suspected educator misconduct related to TIA student growth measures, and local penalties for violating TIA student growth measure integrity.

Each District employee shall perform his or her duties in accordance with state and federal law, District policy, and ethical standards. The District holds all employees accountable to the Educators' Code of Ethics. [See DH(EXHIBIT)]

Each District employee shall recognize and respect the rights of students, parents, other employees, and members of the community and shall work cooperatively with others to serve the best interests of the District.

Student Growth Measure Security and Confidentiality

Maintaining security and confidentiality of student growth measures helps to ensure that student performance is accurately measured as a part of our TIA system. In order to maintain student growth measure security and confidentiality:

- student growth measure test contents should not be shared/discussed
- student growth measure test administration procedures should be followed exactly as provided by the district
- student growth measure test materials or student products shall be maintained in a secure location before, during, and after test administration
- students must be actively monitored during student growth measure test administrations
- students may not receive assistance to complete student growth measures, beyond what is allowable by the district or prescribed by a governing student committee as applicable to STAAR or other standardized assessment programs (e.g., ARD, LPAC, 504, etc.)
- suspected educator misconduct must be reported in a timely manner (see reporting guidance below)

Serious Student Growth Measure Testing Violations

The following educator conduct represents serious student growth measure testing violations to security and confidentiality:

- directly or indirectly assisting students with responses to test questions
- tampering with or falsifying student responses
- discussing or disclosing test content or student responses, except as needed for data analysis and/or instructional decision-making
- duplicating, recording, or electronically capturing test content or student responses, unless authorized to do so by test coordinator
- exempting or preventing a student from participating in student growth measures
- failing to implement sufficient procedures to prevent student cheating
- encouraging or assisting an individual to engage in any conduct described above, and
- failing to report an individual that has engaged in or is suspected of engaging in any conduct described above

Reporting Suspected Student Growth Measures Testing Violations

The following steps should be taken by any HCISD employee to report suspected student growth measure testing violations:

- immediately report the suspected violation to their campus administrator
- campus administrator will review the information to determine report credibility and whether or not the report includes a student growth measure testing violation
- credible student growth measure testing violations are reported to the district's Data Governance department for further investigation
- **The TIA coordinator along with Human Services staff** will continue the investigation, which could include interviews of campus staff and students, assembly of signed statements, and collection of any evidence .

Local Penalties for Tampering with Student Growth Measure Integrity

Any person who violates, assists in the violation of, or solicits another to violate or assists in the violation of student growth measure integrity, as well as any person who fails to report such a violation or fails to cooperate in an investigation, is subject to local penalties, such as but not limited to:

- placement of reprimand letter in personnel file
- invalidation of student test scores for TIA eligibility

Teachers will be required to sign and abide by the Oath of Test Security and Data Integrity that mirrors the applicable expectations for pre/post testing categories. (See Appendix E)

TIA Scoring & Eligibility

TIA designations are determined based on the TIA score, a teacher observation composite score and the student growth composite score. In order to determine annual teacher eligibility for a TIA designation, the following steps are completed at the district-level end-of-year data analysis:

1. The calculation for the teacher observation component will be an average of each dimension in Domains 2 and 3 from the TTESS Summative.
2. The student growth score is calculated for all teachers with student growth results for students meeting enrollment criteria at BOY, MOY, & EOY or other local criteria set per Student Growth Measure (SGM). The percentage is calculated based on the sum of students meeting growth expectations across content areas and the sum of tested students across content areas. Percentages are rounded to the nearest whole percent (no decimals).
3. The TIA score is calculated based on the weighted combination of teacher appraisal, student growth outcomes, and Teacher Leadership:
 - Teacher observation composite score is 40% of the TIA score.
 - Student growth composite score component is 60% of TIA score.
4. Teacher appraisal and student growth outcomes are verified to ensure that the component scores meet the State's minimum performance criteria:
 - If the minimum performance criteria is met, a TIA designation is submitted to the State for data review; pending TEA data validation, TIA designation is attached to the teacher's teaching certificate for a period of five years.
 - If the minimum performance criteria is not met, a No Designation is submitted to the state as part of the complete data file for review.

**Note: The statewide performance standards are guidelines for districts to use when developing their local designation system. District minimum performance standards and cut points may have to be adjusted and will be finalized in September after the data capture year.*

HCISD TIA Data Validation Tool

Each year of the TIA evaluation cycle, teachers will receive a locally designed TIA data validation tool to review and verify the teacher data that will be used to calculate final student growth ratings for designation level decisions. The purpose of the Data Validation Tool will be to provide transparency within HCISD's TIA system. Teachers will be afforded an internal appeals process for discrepancies found in the teacher-student data.

**Note: Appeals to TTESS final scores are governed by the official TTESS timelines set by the State and/or District and are not appealed through the local TIA Data Verification process.*

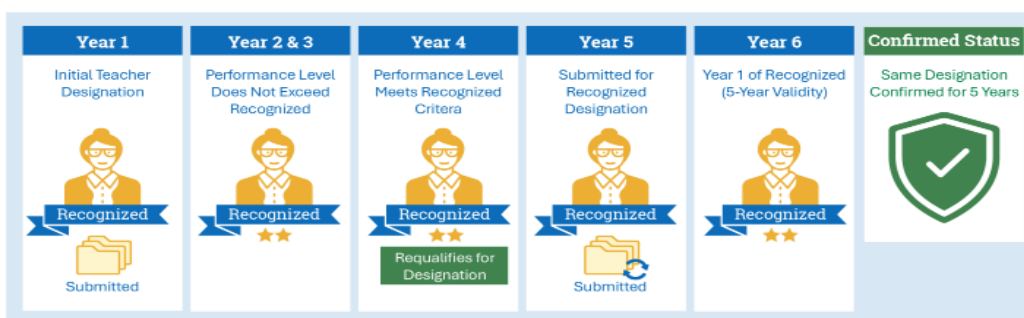

TIA Evaluation Frequency

Evaluation of teacher eligibility for a TIA designation is considered **annually**. This means that every year a teacher receives a T-TESS evaluation and has available student growth measure data, the teacher's TIA score will be calculated, and the teacher has an opportunity to meet TIA eligibility:

- Teachers with an existing TIA designation will not be annually resubmitted for designation within their five-year valid TIA designation period if they continue to meet the same designation level - example, a teacher that earned an Exemplary TIA designation during 2025-2026 would not be submitted to maintain their TIA Exemplary designation in 2026-2027 if they continue to earn a qualifying Exemplary designation TIA score and meet the minimum teacher appraisal and student growth component minimums.
- Teachers with an existing TIA designation **will be resubmitted for a higher designation** within their five-year valid TIA designation period if a subsequent year performance earns a higher TIA designation - example, a teacher that earned a Recognized TIA designation during 2025-2026 could be submitted in 2026-2027 for a Master TIA designation if they earn a qualifying Master TIA score and meet the teacher appraisal and student growth component minimums.
- Teachers with an existing TIA designation will not be resubmitted to lower a TIA designation within their five-year valid TIA designation period.
- Teachers with incomplete observation data or without a summative appraisal are not eligible to earn a designation.

Effective April 2026: Beginning with Fall 2026 data submission, districts may choose to submit qualifying teachers entering their final year of designation for a same-level redesignation, allowing the new designation to begin immediately after the original expires- without a gap period during data validation.

How Same-Level Redesignation Works

The image above shows a teacher who does not qualify for a higher designation through Year 4 but requalifies at the same level and is resubmitted in the fall of Year 5, resulting in uninterrupted designation status.

TIA Campus Allotment Factors

The TIA program is available to all Texas school districts and open-enrollment charter schools. The amount of TIA funds generated is determined by a state formula that considers **campus characteristics**, including student socioeconomic status and campus location:

- Schools with greater student need, based on socioeconomic factors, generate more TIA funds per TIA designated teacher.
- Rural schools generate more TIA funds per TIA designated teacher based on a higher multiplier applied to students based on socioeconomic factors.

In the event that a TIA designated teacher is employed at a campus without a campus PEIMS number (e.g. STEM, Dr. Cano Academy), campus characteristics used to determine TIA allotments would be based on district average student socioeconomic status.

For more information about the TIA allotment calculations, see TEA's [Teacher Incentive Allotment](#) page. For more information about the specific amount of TIA funds generated by TIA designated teachers at every campus across the state, see TEA's [Teacher Incentive Allotment Funding Map](#).

Compensation

Distribution of Compensation

Statute requires that 90% of TIA funds be distributed directly to teachers:

- HCISD TIA-designated teachers will receive 90% of the allotment minus the required payroll deductions.

The District shall retain 10% of the TIA allotment to use as follows:

- The entire 10% allotment will be used at the district level to support district oversight of the implementation of TIA and ongoing development of TIA resources.

Frequency of Compensation

TIA compensation is an annual allotment provided by the State and subject to availability of state funding allocations.

- TIA-designated teachers will receive TIA compensation **annually** based on their approved TIA designation and TIA state funding for their campus of assignment at the time TIA funds are disbursed.
- During the first year of designation, the compensation will be a one-time lump sum paid in the Spring.
- For subsequent years of the designation, the TIA-designated teachers' allotment will be split into two distributions (Fall and Spring). *Note: The Fall payment is an advance on the total allotment determined by the state each April of the current school year. In the Spring, the teacher will receive the remaining balance (your total state-determined allotment minus the Fall advance).*
- Please note that student enrollments change annually, and TEA will calculate allotments annually for a teacher based on the teacher's designation and school characteristics (socio-economic tiers and rural status). Therefore, allotments may vary annually.

Impact of Compensation

TIA allotments **will** be eligible for use when calculating retirement benefits for TRS-eligible staff. Employees are responsible to pay both the employee and employer benefits and tax costs in excess of what TIA funding covers. Actual TIA compensation amounts distributed will include deductions for federal income tax, Medicare tax and TRS contributions as part of an employee's annual wages reported to the state and federal governments, as well as the Teacher Retirement System (TRS).

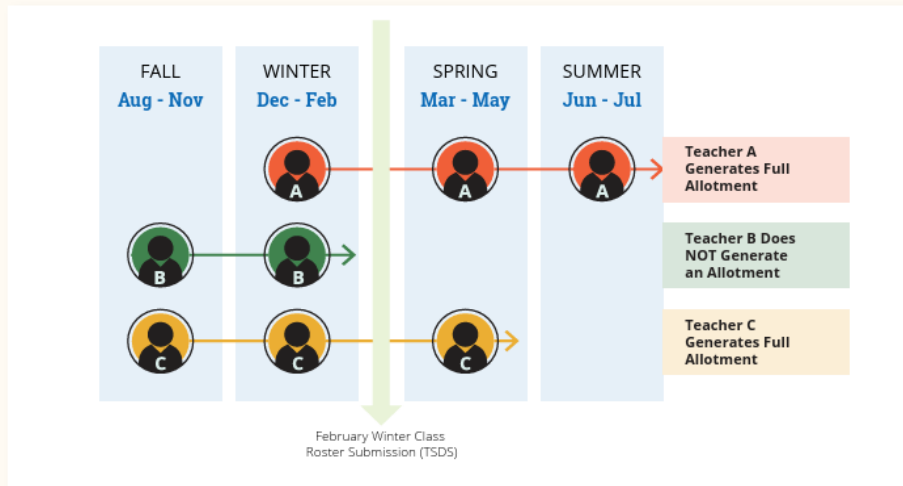

Teacher Movement

Allotment values are determined by each designated teacher's campus as of the last Friday in February. Funds do not follow designated teachers in real time, and allotments are not prorated between campuses or school districts. If a designated teacher moves districts midyear, the timing is paramount to determining which district, if any, receives funds.

How Teacher Resignations Affect Funding

How Teacher Resignations Affect Funding

Note: In the example listed above, Teacher A would not generate an allotment based on the HCISD TIA local designation plan; as the teacher was not employed during the BOY deadlines.

Annual TIA Evaluation Cycle

The T-TTESS evaluation cycle will be critical to ensure that teachers are provided sufficient support in achieving and maintaining high levels of instructional effectiveness. Therefore, the following evaluation cycle provides the structure necessary for an efficient feedback structure:

(For SLO specific Timeline Structures, See Appendix E)

Process Step	Timeline	Description
--------------	----------	-------------

Teaching & Orientation	July-October	• Training on TIA, new system and T-TESS observation instrument • Principal communicates school & district goals to inform teacher goal setting
Student Fall (BOY) Assessment	September-October	• CIRCLE – Reading, Math • IReady – Reading, Math
Goal Setting Conference	September -October	• Evaluator and teacher review and agree on goals and professional learning plan
T-TESS Walkthrough Observations	Mid-October-May	• 10–20-minute observation • Minimum of 1 per semester • Focus on T-TESS Domains 2 & 3 and their eight dimensions • Written feedback required
Formal Observations w/ Conference	November-January (TIA Eligible Teachers) November - March (Non-TIA Eligible Teachers)	• One 45-minute observation • Pre-conference • Focus on T-TESS Domains 2 & 3 and their eight dimensions • Written feedback and conference required
Middle of Year (MOY) Assessment	January	• CIRCLE – Reading, Math • i-Ready – Reading, Math
Summative Evaluation	March-May	• Includes review of all four T-TESS domains • Focus on T-TESS Domains 2 & 3 and their eight dimensions • Written feedback and conference required
Student Spring (EOY) Assessment	April-May	• CIRCLE – Reading, Math • IReady – Reading, Math • STAAR Assessments
Professional Development	June (PY) – May (CY)	• Teachers will engage in professional development activities throughout this period.
End of Year Data Review	May-June	• Teachers review and reflect on student growth goals and student growth outcomes • Campuses and departments compile data for final TIA evaluation process
Evaluation Rating & TIA	June-July	• District analyzes T-TESS and student growth data
Data Verification Audit	August-September	• Teachers receive a locally designed TIA data verification tool to review and verify the teacher data that will be used to calculate final student growth ratings and designation level decisions.

		Teachers can request an audit and provide corresponding documentation to support review
--	--	---

TIA Timelines

Participation in the State’s TIA compensation program requires that districts follow a series of activities to seek TEA approval of the locally developed program implementation. Timelines are provided below.

- Access the TIA system application and additional guidance posted by TEA (November)
- Submit TIA application detailing locally developed system (April)
- Receive TEA feedback on TIA application submission (June)
- Resubmit TIA application responding to TEA’s feedback and additional system refinement (July)
- Receive TEA approval of TIA application (August)
- Data collection (August-May)
- Data submission to Texas Tech for review (October of the following year)
- Final notification of data validity & reliability and approval of district TIA system (February of the following year)

APPENDICES

Appendix A: Student Growth Measure

PLEASE NOTE: This is a working document; details are subject to change. Updated 8/21/26 p.29

Teacher Category List (2026-2027)

- Teachers are only eligible for ONE Category
- For teachers qualifying for more than one category, their “most representative” course will be used (see Appendix E)
- TIA Eligible Category and course is established during the BOY Conference and cannot be changed for the year.

TIA Eligible Category	Courses Included	Student Growth Measure	District Administrator Contact
1	PK3 and PK4: Reading and Math	Circle	Director of Multi-Language/Early Childhood, Norma Garcia
2	8th Social Studies & Science Biology, US History	Texas VAM Based on STAAR	Director of CIA, Dr. Kevin Garcia
3	K-5 Reading, K-5 Math,	iReady	Director of CIA, Dr. Kevin Garcia
4	Fine Arts, CTE, SPEC. ED. (Inclusion, Life Skills, ECSE, Dyslexia, VI, APE, Elementary Resource, BAC), GT, AP, Dual Enrollment, Semester Based Courses, PE/Athletics/ROTC, Foreign Languages, DAEP, Credit Recovery, 5th Grade Science, Non-EOC Core Classes	SLO	Director for CTE, Nelda Alonzo Director of CIA, Dr. Kevin Garcia Director of Special Education, Oziel Ochoa Director of Performing Arts, Lee Ann Ince Director of Music, Kara Hoeflinger Director of Multi-Language/Early Childhood, Norma Garcia Asst. Director of Athletics, Sandra Flinn
5	Grades 6-8 Reading, Lang. Arts & Math; Eng. I, Eng. II, and Algebra I	STAAR with Transition Tables	Director of CIA, Dr. Kevin Garcia

Appendix B: How to Determine TIA Teacher Category and Growth Measure

Guide for identifying appropriate Teacher Category to determine growth measures for TIA Eligible Teacher Groups:

Most Representative will ultimately be determined at the BOY Conference.

The Priority Hierarchy below is a guide for campus administrators to use to determine the HCISD TIA approved teacher category for each teacher . Ultimately, campuses may have unique exceptions that may constitute or justify a specific category that supports district and/or campus goals. These decisions will be made by the campus principal with consultation with the TIA Coordinator**

(To ensure the course selected is an approved course in the HCISD TIA application)**

The Assigned Category will be coded in eSchoolPLUS by the administrator or their designee, and must be determined before the teacher submits the Oath of Test Security and Data Integrity.

Priority Hierarchy to Determine Category:

- I. Secondary only: If teacher teaches STAAR courses priority will be assigned to these courses
- II. Teacher Assignment
- III. Year-Long Course
- IV. Core Subject
- V. “Most Representative” determined by most students for the respective course or section
- VI. Any additional anomalies will be discussed at the BOY conference with campus administrator for category determination.

Appendix C: HCISD Student Learning Objectives (SLOs) Teacher Timeline (Year-Long Courses)

June - September	Attend and/or Complete Texas SLO Training • In-Person training offered by the district for teachers new or in their subsequent years of using Texas SLO. • Teachers not attending an in person training may complete training through Texas SLO (Modules 1-5) and will submit certificates of completion via Texas SLO website link.
August - September 11, 2026 Deadline for Teachers to submit completed SLO to Appraiser via See One: Sept. 11, 2026	• Gather student data for completion of student initial mapping ○ Use current or historical data that is aligned to the three foundational skills to map students into their BOY levels • Teachers draft SLO and have <u>three</u> peers review it before submitting it to the appraiser for approval in See-One. ○ Complete the SLO and TSP (refer to SLO Skill Statement rubric and Target Skill Profile (TSP) rubric) ○ Teachers will use the See One system for creation and submission of SLO to campus administrator for approval
September 11 - September 21, 2026 Deadline for Appraiser Approval of SLO: Sept. 21, 2026	• Teachers receive approval or feedback and make adjustments to draft SLO and TSP if needed and resubmit to the appraiser for final approval. • Beginning of the Year (BOY) Conference (Deadline Sept. 25th) • Recommended that Teachers use the approved SLO for TTESS Student Growth Goal Component and imputed into Strive
Check-In #1 October 23, 2026	Submit Body of Evidence #1 (BOE #1) in See-One Note: The See One system will open for submission of evidence on Oct. 8th and will close on Oct. 23rd at 11:59 p.m.
Check-In #2 December 11, 2026	Submit Body of Evidence #2 (BOE #2) in See-One Note: The See One system will open for submission of evidence on Dec. 3rd and will close on Dec. 11th at 11:59 p.m.
Check-In #3 February 05, 2027	Submit Body of Evidence #3 (BOE #3) in See One Note: The See One system will open for submission of evidence on Jan. 28th and will close on Feb. 5th at 11:59 p.m.
MOY Conference March 12, 2027	SLO Middle of the Year Conference • Monitor SLO progress, reflection, and adjust instruction accordingly
Check-In #4 April 02, 2027	Submit Body of Evidence #4 (BOE #4) in See One Note: The See One system will open for submission of evidence on March 25th and will close on April 2nd at 11:59 p.m.
Check-In #5 May 07, 2027	Submit Body of Evidence #5 (BOE #5) in See One Note: The See One system will open for submission of evidence on April 29th and will close on May 7th at 11:59 p.m.
EOY Conference May 3, 2027	End of the Year Conference with Appraiser can be completed in conjunction with the T-TESS Summative Conference) • Discuss the SLO and student growth calculations as per available current data (ratings for Check-In #1 to Check-In #4) • Calculate the percentage of students who met their growth targets using available current data (ratings for Check-Ins #1 to Check-In #4)

Appendix D: HCISD Student Learning Objectives (SLOs)

Teacher Timeline (Semester Courses)

Teachers who teach Semester based courses will use the Spring semester as their official TIA data capture on See One. In the Fall, teachers will create their Draft SLO statement, etc. using the SLO PDF document and their current students. Teachers can use the Fall semester as a practice since the Spring data collection will consist of five (5) BOE submissions in one semester for the use in official TIA Data Capture.

June - September	Attend and/or Complete Texas SLO Training - In-Person training offered by the district for teachers new or in their subsequent years of using Texas SLO. - Teachers not attending an in person training may complete training through Texas SLO (Modules 1-5) and will submit certificates of completion via Texas SLO website link.
September 25, 2026	T-TESS Goal Setting Professional Development - Beginning of the Year (BOY) Conference (Deadline Sept. 25th)
January 6 - 15, 2027 Deadline for Teachers to submit completed SLO to Appraiser via See One: Jan. 15, 2027 Deadline for Appraiser Approval of SLO: Jan. 22, 2027	- Gather student data for completion of student initial mapping - Use current or historical data that is aligned to the three foundational skills to map students into their BOY levels - Teachers draft SLO and have <u>three</u> peers review it before submitting it to the appraiser for approval in See-One. - Complete the SLO and TSP (refer to SLO Skill Statement rubric and Target Skill Profile (TSP) rubric) - Teachers will use the See One system for creation and submission of SLO to campus administrator for approval - Teachers receive approval or feedback and make adjustments to draft SLO and TSP if needed and resubmit to the appraiser for final approval.
Check-In #1 February 05, 2027	Submit Body of Evidence #1 (BOE #1) in See-One Note: The See One system will open for submission of evidence on Jan. 28th and will close on Feb. 5th at 11:59 p.m.
Check-In #2 February 26, 2027	Submit Body of Evidence #2 (BOE #2) in See-One Note: The See One system will open for submission of evidence on Feb. 18th and will close on Feb. 26th at 11:59 p.m.
Check-In #3 March 25, 2027	Submit Body of Evidence #3 (BOE #3) in See One Note: The See One system will open for submission of evidence on March 11th and will close on March. 25th at 11:59 p.m. Middle of the Year Conference/Check-in Monitor SLO progress, reflection, and adjust instruction accordingly
Check-In #4 April 16, 2027	Submit Body of Evidence #4 (BOE #4) in See-One Note: The See One system will open for submission of evidence on April 8th and will close on April 16th at 11:59 p.m.
Check-In #5 May 7, 2027 EOY Conference May 3, 2027	Submit Body of Evidence #5 (BOE #5) in See One Note: The See One system will open for submission of evidence on April 29th and will close on May 7th at 11:59 p.m. End of the Year Conference with Appraiser can be completed in conjunction with the T-TESS Summative Conference) - Discuss the SLO and student growth calculations as per available current data (ratings for Check-In #1 to Check-In #4) - Calculate the percentage of students who met their growth targets using available current data (ratings for Check-Ins #1 to Check-In #4)

Appendix E: HCISD - Teacher Incentive Allotment Oath of Test Security and Data Integrity

School Year: _____ Subject Area: _____ Grade Level:

_____ Check Applicable: Pre/Post Test or STAAR SLO

For Pre/Post Test or STAAR – (If SLO, skip to next section)

Initial below

_____ I do hereby certify, warrant, and affirm that I have attended training pertaining to the rules and regulations governing the administration of HCISD's TIA student Pre/Post or STAAR testing programs (iReady, CLI, STAAR).

_____ I understand my obligation to maintain the security and confidentiality of the test. _____ I understand that I have been directed to report immediately to the Campus Testing Coordinator or Administrator any suspicious conduct or irregularities that I observe or am directed to participate in with regard to testing.

_____ I am aware that the district will investigate and may take disciplinary action against me if I fail to report suspected or actual violations of district test procedures.

_____ I am also aware that compromising the contents of any portion of a secure test will result in consequences defined in local policy (*Student Growth Measure Integrity*), including invalidation of student results.

For SLO -

Initial below

_____ I do hereby certify, warrant, and affirm that I have attended training pertaining to SLO development and implementation throughout the school year.

_____ I understand the rules and regulations governing the fulfillment of HCISD's TIA student SLO requirements. I understand my obligation to abide by the timeline and methods for uploading authentic student artifacts into See One platform.

_____ I understand that once submitted, data cannot be deleted or changed and at any point, I will need to discuss the artifacts in order to confirm their validity.

_____ I understand that I have been directed to report immediately to the Campus Testing Coordinator or Administrator any suspicious conduct or irregularities that I observe or am directed to participate in with regard to collecting and submitting data.

_____ I am aware that the district will investigate and may take disciplinary action against me if I fail to report suspected or actual violations of district SLO procedures.

_____ I am also aware that compromising the contents of any portion of a secure submission will result in consequences defined in local policy (*Student Growth Measure Integrity*), including invalidation of student results.

HCISD - Teacher Incentive Allotment Oath of Test Security and Data Integrity

I do hereby further certify, warrant, and affirm that I will faithfully and fully comply with all requirements concerning test security and data integrity.

IN WITNESS WHEREOF I affix my hand on this the ____ day of _____, 20 ____.
